### PROFESSIONAL SUMMARY

Experienced developer proficient with 3 years' experience in full-stack development, with a strong focus on problem-solving.

My objective is simply to be the best engineer that I can be and to contribute to the technology industry all that I know and can do.

I am dedicated to perfecting my craft by learning from more experienced developers, remaining humble, and continuously making strides to learn all that I can about software development. I believe that my understanding of problem-solving is also a skill that I have, and will continue to contribute to my overall success as developer.
